Project

Food Munch   project1_link

Technologies used : HTML, CSS, Bootstrap

A fully responsive website that offers a comprehensive list of food items and detailed information about each item.

- Designed to provide the best user experience with HTML structure elements and Bootstrap components.
- Implemented product videos to give customers a clear view of the food items.

Todos Application   project2_link

Technologies used : HTML, CSS, JS, Bootstrap

A comprehensive todo management tool designed to enhance productivity.

- User-friendly interface with HTML, CSS, and Bootstrap for ease of use.
- Effortless task management through JavaScript-based CRUD operations with dynamic UI updates.

- Your tasks are always safe with local storage methods to ensure task persistence.

Covid Dashboard

Technologies used : HTML, CSS, JavaScript, React JS, Recharts, Figma

Implemented a responsive Covid Dashboard where users can see confirmed, active, recovered and deceased cases in India state wise. Users also can search by state and see state specific cases info with different types of graphs.

- Implemented different routes for features like home, state-specific details, and about by using React Router components Route, Switch, Link.
- Implemented graphs like a bar chart, line chart using React Third Party library Recharts to show different stats.
- Used Figma mockups to implement UI-rich and pixel-perfect React components.
- Explored open-source APIs for covid info and picked covid19india.org APIs for state-wise stats, timelines for graphs, faqs related to COVID.

Portfolio Website

Technologies used : HTML, CSS, JavaScript

The website kvsivareddy.vercel.app serves as the personal portfolio of K V Siva Reddy, a proficient web designer and developer. It showcases his expertise in both front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, and Python. Visitors can explore sections detailing his educational background, professional experience, and the range of services he offers, such as web design and development. The portfolio also features a selection of his recent projects, providing insight into his practical skills and accomplishments. For inquiries or collaboration opportunities, the site offers multiple contact options, including phone and email.
